

ARGSA GROUP AND TECHNOLOGY

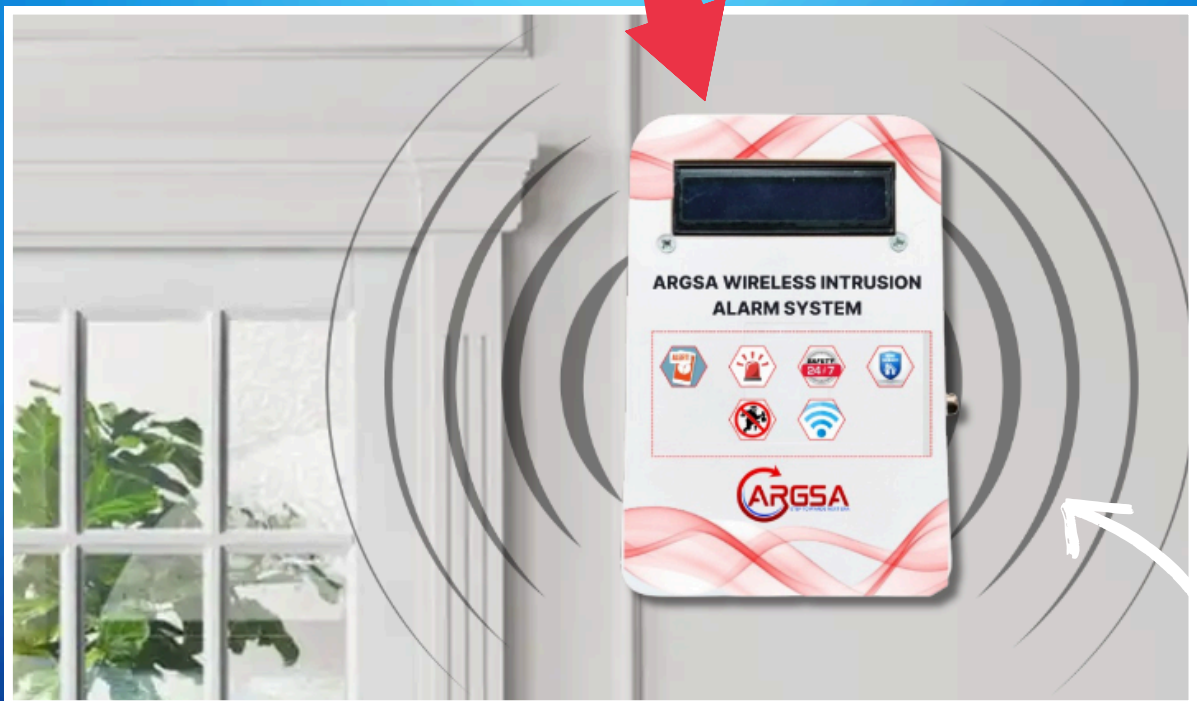

Your one stop shop for all kinds of security, personal safety, tracking and surveillance solutions.

Argsa Intrusion Alarm System

- **Wireless standalone units with high accuracy.** ✓
- **Connect multiple phone numbers and other output intrusion units.** ✓
- **Real-time SMS and CALL alert.** ✓
- **Attach multiple sensors and sirens like motion, door, etc.** ✓
- **Suitable for office, house, garage, shop/store and any other property.** ✓

If someone tries to break into your property, the **input unit** will **detect** the intrusion and will get **activated**.

The **input unit** will **trigger** the **sirens** inside your property and will relay intrusion signal to the **output units**.

The **output units** will then trigger sirens attached with it. Real-time intrusion data will be transmitted to the **police station**.

The **output unit** in your house will also get triggered informing you about property intrusion in case your **phone** is **silent**.
